WHAT IS THE WINTER SESSION?

Like fall and spring semesters, the winter term is an opportunity for you to make progress towards your degree. The Winter Session at Rutgers University–New Brunswick is unique because you can:

- Earn up to four credits in just a few weeks
- Focus on just one course at a time
- Get to know your professors and classmates in a small class setting
- Choose from a wide variety of online, hybrid, or face-to-face courses
- Experience something different with short travel courses or field experiences

BENEFITS OF WINTER SESSION

- Stay on track for graduation
- Improve your GPA
- Reduce your course load for spring or fall term
- Fulfill a prerequisite or degree requirement

FEATURED COURSES

Crisis Communication (17:194:502)
Dr. Richard Dool

Learn the key elements of risk and crisis management—and their roles in the crisis communication process—in this winter's graduate-level course **Crisis Communication**. This discussion-based online course will include analyses of several crisis-communication studies, a review of effective crisis communication plan elements, and the development of communication tactics for a range of stakeholder audiences. Students will learn about the reasons crises emerge, crisis management best practices, examples of poorly managed crises and the lessons learned from them. Learn more at winter.rutgers.edu/crisiscomm.

Introduction to Experimentation (01:160:171)
Dr. Michael Vitarelli

Introduction to Experimentation is an exciting and fast-paced course designed for students interested in completing a general chemistry lab in an intense setting. During this in-person course, students will conduct experiments relevant to a general chemistry curriculum. The course is required for students majoring in engineering, pharmacy, and biological sciences as well as those who plan on going to medical school. Learn more at winter.rutgers.edu/chem-lab.

Introduction to Physical Therapy (01:377:160)
Dr. Nicole Nagle

Learn more about the growing field of Physical Therapy (PT) in the brand new Rutgers course **Introduction to Physical Therapy**. Students in this course will shadow a physical therapist and write a follow-up report as part of their grade. This will help expose students to the field as well as provide opportunities to gain volunteer experience. Students will also receive help preparing for the graduate school application process. Learn more at winter.rutgers.edu/pt.

Religions of the Western World (01:840:212)
Dr. Hilit Surowitz-Israel

Keep your mind in tip-top shape this winter with the thought-provoking course, **Religions of the Western World**. This hybrid course will introduce students to the beliefs, practices, and sacred writings of Judaism, Islam, and Christianity as well as the indigenous traditions of Europe and the Americas. Learn more at summer.rutgers.edu/western-religion.

Media and Popular Culture (04:567:333)
Dr. Todd Wolfson

Study the relationship of media and popular culture—and their impact on society—this winter. During the online course **Media and Popular Culture** students will learn how to quickly identify with the subject matter and participate in lively discussions about the current social, cultural and political environment. Learn more about this course at winter.rutgers.edu/media-pop.
